Solid Pine

For a Natural Warmth and an Ever-enduring Look

EL & EL Wood Products Corp.

Millwork that creates distinction.™

Solid Pine

Solid Pine, valued primarily for it's appearance and workability, has long been the moulding stocked by most lumberyard and home centers.

There are many species of solid pine, including domestic Ponderosa and Sugar Pine, along with imported lumber from various countries such as Chile, Russia, and Brazil. With the concerns over deforestation and endangered species, domestic Ponderosa and Sugar Pine became limited in supply and sold at a premium price compared to other types of domestic or imported pine.

Solid Pine is beautifully grained and is easy to work with, and offers many choices for finishing. Pine can simply be clear coated to show its natural warmth, or it can be stained in a variety of colors, white washed, antiqued, or painted. Solid Pine often has a special place in the hearts of those who love wood.
